

# Batin Can Balkan

514-617-1227 [batin.balkan@mail.mcgill.ca](mailto:batin.balkan@mail.mcgill.ca)

## Education

**Bachelor of Software Engineering**

June 2017

McGill University, Montreal, QC (Year 4)

## Languages

English (native), Turkish (native), Spanish (limited working proficiency)

## Technical Skills

**Programming Languages:** Java, C, JavaScript, HTML, CSS

**Frontend Frameworks:** Bootstrap, Vue.js

**Command Languages:** Bash

**Functional Programming:** OCaml

**Model Based Programming Languages:** Umlple

**Tools:** Visual Studio, Eclipse, jUCMNav, Github, Gradle, Spring Tool, UMLlab, Travis, Heroku, Hibernate, Zenhub, junit, RESTful API, Vue.js

**Publishing Software:** MS Office Suite

**Database:** MySQL

**Requirements Engineering:** Domain Models, Class/ Sequence Diagrams, State Machines, Project Vision/ Scope/ Personas, Feature/ Scenario/ Goal Models, Use Case Diagrams, User Stories, Requirements Modelling, Object Relational Mapping

## Internship Experience

**Software Engineering Intern**

July 2018 – September 2018

Getir, Istanbul, Turkey

- In a team of 4, coded a part of the new update using JavaScript.
- Contributed to content creation as a technical writer for design documentation.
- Methodically utilized case modeling during system design and implementation to demonstrate thorough comprehension of stakeholder requirements.
- Contributed to recording a video of functionality for AppStore update.

**Software Engineering Intern**

August 2015 – September 2015

DorukNet, Istanbul, Turkey

- Learned how to document a project from a lead engineer and documented a part of backend code.
- Learned how to work as a group on a huge project, and how to use GitHub.

**Software Engineering Intern**

July 2015 – August 2015

Koc Holding, Istanbul, Turkey

- Helped researches with their researches.

## Software Projects

**RestoApp**

December 2017

Montreal, Canada

- In a group of four, we created a complete, highly sufficient restaurant application using Umlple modelling language, and Java.

**Consultech Application**

December 2018

Montreal, Canada

- In a group of 5, we completed whole requirements engineering aspect of a business efficiency improving project.

**Coop Program Management Application**

January 2019- Present

- I lead a group of 5, for completion of this software project.

**Other Projects**

Montreal, Canada & Istanbul, Turkey

- Both individually, and alone I have completed many Java, C, bash projects.

## Extracurricular Activities

**VP Technology at Designer's Hub McGill**

March 2019- Present

Montreal, Canada

- In charge of every technological aspect of the club. I will give workshops, make design choices, and etc.
